

Welcome!

What is the school doing to help keep us healthy and safe?

RISE to the challenges we face

Responsibility – take responsibility for making good decisions and looking out for the health, safety and well-being of the people around you.

Integrity – act in good faith and be honest

Strength – it will take a strong community, with people of strong ethics all working together to keep people safe and healthy

Excellence - while we have a lot of changes we need to adapt to, our focus is still on teaching, learning and personal excellence

The BIG Picture

- The safety measures that we are becoming used to using in the community apply to SCHS:
- Social distancing wherever possible
- Masks when distancing isn't possible
- Proper hand hygiene
- Minimizing the number of people we are coming in direct and indirect contact with each day

The BIG Picture

- Information changes quickly
- We continue to take direction from RVS, Alberta Education and Alberta Health Services
- We will be adjusting our plans as we live with them and figure out which ones work for us and which ones don't

Daily Self- health Check

- Must be done each day before coming to school
- Everyone does it
- Not collected
- Be honest (integrity)
- Can't attend school that day if you respond YES to any item
- Must stay at home until symptom free

Arrival at School

- Will have 5 entrances open at start of the day
- Bused? Use door closest to your first period classroom
- Dropped off? Say goodbye in the car and use main entrance
- Driving? Park in school lot and use main entrance (science wing entrance if parked in the lot by the soccer fields)
- Maintain social distancing and be patient to avoid congregating at an entry door

Entering the School & Lockers

- Maintain social distancing and/or use mask
- Always enter and exit through the door to your righthand side. (*This allows students going in the opposite direction to pass through the doors to your left.*)
- Lockers are not available because it doesn't allow for distancing
- Packs and jackets stay with you in classrooms – teachers to direct what to do with them

Masks

- Must be worn in all common areas and classrooms
- Remember to bring a mask, have a spare, each student to be provided 2 reusable cloth masks
- School has limited supply of disposable masks if a student forgets
- Will try to provide mask breaks as often as we can (get outside, for example)
- Not when eating or drinking, but replace masks as quickly as possible

Classrooms

- Hand sanitize when you enter
- Wipe down desk when you sit down
- Desks should not be moved without teacher permission
- Seating will be assigned

Hand Sanitizing and Washing

- As you enter each classroom
- Before and after eating
- After using the washroom
- Students encouraged to bring your own small bottle of hand sanitizer

Washrooms and Water

- There is an occupancy limit for each washroom
- Occupancy posted outside each washroom
- Limits help provide for appropriate social distancing, so please adhere to those limits
- Bring your own full water bottle each day
- Bottle filling stations will be available, but not fountains

Class Transitions & Hallways

- Move to your next class quickly; don't hang out in hallways
- Stay to the right
- Arrows and markers on the floor, so watch for them and follow them

School Supplies & Shared Equipment

- Must bring your own school supplies
- Avoid sharing items wherever possible
- Shared equipment needs to be sanitized between users
- Teachers will share specific information for equipment sharing in certain classes (science, PE, foods, for example)

Snacks & Water in Class

- Bring a water bottle
- Can drink water in class (remove mask, take a drink then quickly replace your mask)
- Snacks are okay, but at the discretion of the teacher (can't interfere with the lesson)
- Eat breakfast, plan for a good lunch so you don't need to constantly snack

Lunch Time

- ▶ Students must sign up for a place to be at lunch for the entire week – in PowerSchool
- ▶ Grade 11 and 12 - Students are encouraged to leave the premises at lunch.
- ▶ Students can be outside for lunch; those who don't sign up for a spot will be directed to go outside

- ▶ Sanitize hands before and after
- ▶ Cafeteria is open; purchase food then move to your assigned spot

Focus and Advisory

- Still have that time, but it will be part of the period 1 class
- This avoids us bringing together more groups of students
- Time can be used for a variety of purposes as per teacher's discretion
- Advisory is every other Monday morning, again part of the period 1 class

Technology & Cell Phones

- Bring your own laptop or tablet if possible
- Loaner laptops may be available, but are very limited in supply
- Talk to admin if requiring a laptop and can't bring one from home

- Cell phones not allowed to be used in classrooms UNLESS: teacher invites students to bring and use their phones AND it is for an educationally valid reason

Field Trips & Extracurricular Activities

- At this time we cannot take students on field trips requiring group transportation
- Extracurricular clubs and activities can and will proceed
- Clubs, activities must follow protocols for distancing, mask usage, shared equipment

Athletics

- Can still participate in practices
- No interschool competitions

Volunteers and Guests

- ▶ Volunteers and guest speakers are not allowed into the school
- ▶ Parents/guardians can still come into the school if there is a need to
 - ▶ Do a self-health check prior to entering
 - ▶ Wear a mask
 - ▶ Sanitize hands upon entering
 - ▶ Go directly to the main office and sign in
 - ▶ Should have made an appointment whenever possible
 - ▶ Meetings can be virtual instead

Keeping an On-line Presence

- More of an on-line presence (some assignments on-line and collected on-line, resources available, etc.)
- So that absent students can better keep up and it would make the transition to scenario 2 more effective
- Scenario 2:
 - 2 cohorts of students – cohort A have surnames starting with letters A to L inclusive; cohort B is M to Z.
 - Cohort A attends in-school Monday, Wednesday, alternating Fridays; cohort B is opposite that
 - Non in-school days, students are on-line and working on work assigned while in school

We are in
this
together

- We all need to RISE to the challenges we face:
 - Be responsible
 - Act with Integrity
 - Stay strong and help others
 - Stay focused – personal excellence
